This modern hybrid holds the landspeed record, having clocked 185.394 mph (298.363 kph) at the Bonneville Salt Flats during the Southern California Timing Association's annual Speed Week, the fastest speed a hybrid has ever reached on the famed salt flats.

ACM's **Alternative Propulsion** exhibit showcases over 100 years of automobiles powered by steam, electricity, gasoline, and solar. Featuring some of the earliest examples of alternative propulsion, this ramp includes historic modes of transportation to ground-breaking technical advances.

This record-breaking Jetta will be on view through the end of the year, but be sure to catch all the Volkswagens on display in the **VeeDub: Bohemian Beauties** exhibit through Memorial Day, May 26.
