

PASSION. DRIVE. CELEBRATE.

CLUB AUTO is a national network with a purpose: to provide automotive enthusiasts opportunities to drive the cars they love and enjoy the camaraderie of fellow enthusiasts, while giving back to America's Automotive Trust charitable mission of preserving this passion for the next generation.

With exclusive experiences, including membership to LeMay-America's Car Museum, car storage opportunities, and unique driving tours and events, Club Auto is a network of supporters of America's Automotive Trust.

Club Auto is more than fun on the road with your friends; it also helps inspire the next generation of drivers, technicians, and artisans. Your investment in being a Club Auto Member directly fuels programs, field trips, internships, apprenticeships and more through the efforts of its member entities: LeMay-America's Car Museum, RPM Foundation and Concours Club. As a Club Auto Member, you are literally helping drive the future.
