This high-value membership level represents one more example of America's Car Museum's commitment to provide a wide range of innovative membership options and enhancements.

The mission of America's Car Museum is to build an institution that lives at the center of car culture – a gathering place where enthusiasts of all types can come together to celebrate a shared passion for all things automotive. Club Auto is designed specifically to further that goal.

Developed as a means to provide members with exciting and fun benefits in satellite chapter locations, Club Auto helps extend ACM's reach far beyond the main Museum campus. With new venues planned nationally, a Club Auto level membership is one that will continue to grow in scope and value.

We invite you to become an important member of America's Car Museum family by taking advantage of all that Club Auto has to offer.

Meeting and socializing with fellow enthusiasts is the heart and soul of the collector car experience – and a major part of its appeal. A membership in Club Auto opens the door to that experience. With reciprocal benefits throughout the network of regional Club Autos and associated facilities – plus a year-round calendar of club related activities – Club Auto can place you at the very center of collector car culture.
