

# AMERICA'S CAR MUSEUM®

## SCHEDULING TIPS FOR GUIDED TOURS AND WORKSHOPS:

In order to see all the exhibits at LeMay- America's Car Museum, we recommend allowing a minimum of 2 hours for your visit. The Museum is open from 10:00am-5:00pm, but may be able to accommodate earlier arrival times if needed.

In order to ensure your students have a meaningful experience at America's Car Museum, we require guided tours to be in groups of 15 people or less (including students and chaperones). Please divide into groups of 15 or less before the day of your tour. Guided tours may not cover the entire Museum so you may want to allow additional time for self-guided exploration (with or without a scavenger hunt). Due to the attention span of younger audiences, we recommend the following tour lengths:

Grade Level	Guided Tour Length	Approximate % of Museum exhibits that will seen
Preschool	30 minutes	25%
Kindergarten – Eighth Grade	60 minutes	50%
High School & College	60-120 minutes	50-100%

Additional time should also be allowed for groups that schedule workshops (60 minutes for up to 30 people), purchase Speed Zone tickets, or plan to eat lunch at the Museum.

## SAMPLE SCHEDULES

Assume each group is 30 people or less.

### Sample Schedule- up to 60 people
