Dear Kyle

"Jazz!" our Anniversary Gala, is fast approaching. It will be a spectacular evening to celebrate our first year at the new ACM campus with late '40's and early '50's post-war decor and attire, big band jazz, and gourmet food and wine.

For the second year in a row, ACM will host a member-only Concours Club event prior to the Gala to welcome new Concours members, thank loyal donors, and honor Dr. Fred Simeone, a prominent Philadelphia collector, with the second annual Nicole Bulgari Award.

Museum & Lunch Combo

\$20 Includes Museum Admission + \$10 for food and drink

See ticket counter for details

In the tradition of our Hard Hat and High Heels and Grand Opening galas, "Jazz!" will be another enjoyable time at America's Car Museum. Please make plans to invite friends whom you feel should get involved with the Museum. For those of you intending to party late and stay in town, we've blocked rooms at Hotel Murano at a rate of \$149 per night and would be happy to coordinate a reservation for you.

You can purchase your tickets online at www.lemaymuseum.org or let Valerie know how many tickets you would like so she can facilitate the purchase. Her direct contact information is:

Valerie.oshea@lemaymuseum.org
(253) 779-8490
Toll Free: (877) 902-8490

Get Involved

We also hope you will join us on our annual "Wine and Wheels" Driving Tour on June 28-30 through the beautiful back roads leading to Walla Walla - Washington's wine capital. We will stay at the famous Whitman Hotel, enjoy great food, world-class wines and the companionship of our fellow car

Rescuing the Avanti #1001

[ACM makes progress on restoring first-ever sold Avanti](#)

LeMay-America's Car Museum continues to make progress on the Avanti #1001 Rescue Project. The car, donated to the museum in 2001 sporting a psychedelic green-sparkle color, was confirmed by Avanti Corporation as #1001 - the first Avanti ever sold.

The museum launched the Avanti Rescue Project in 2011 and recruited help from members of the Studebaker Drivers Club and Avanti Owners Association International to begin the massive restoration process.

"This car used to turn heads back in the '60's and deserves to be restored to its original showroom condition," said Renee Crist, ACM Collections Manager.

Studebaker expert James Bell and an all-volunteer rescue team joined with ACM to take on the #1001 Rescue Project, which is moving forward due to generous financial support from the ACM board of directors, the public and donated parts and service from Avanti enthusiasts.

Hundreds of volunteer hours have already been poured into restoring the #1001. After the team carefully dismantled the car and stripped away the green-sparkle paint, the Avanti traveled to Sunnyside, Washington, where Ron and DeAnne Hochhalter, lifetime Studebaker Drivers Club members, painted the car "Avanti White," - its original color.

"The car's significance in American automotive design, innovation, and manufacturing reinforces ACM's story of America's Love Affair with the Automobile." said Crist.

The Avanti #1001 Rescue Project continues, but it won't be long before visitors can see this stunning, modern masterpiece of 1960's American automotive culture.

The 1963 Studebaker Avanti #1001 was donated by Lakewood, Washington resident Dr. Daniel Cook.

Forties Fashion To Be Celebrated at Gala

"Jazz!", our Anniversary Gala on Saturday, June 1, will be an elegant affair highlighting late '40s and early '50s cars, clothes, music and dance. Invitations have been mailed and planning efforts are in full swing, but there's still time for you to purchase tickets online and reserve your seats now.

It's also time to begin thinking about what to wear!

What exactly does "Post-War Modern" mean? Following World War II, a shift in fashion occurred as Americans transitioned from rather humble clothing to more elegant and elaborate duds that were indicative of post-war optimism and prosperity. The economy was on the upswing, and Americans were able to afford more luxuries - including luxury automobiles. America's Car Museum will celebrate its one-year anniversary by highlighting this remarkable era with vintage and retro-inspired style of the late '40s and early '50s. Think elegant, chic and individuality.

The evening will include a cocktail reception, dinner, live auction, and jazz entertainment by HB Radke. Guests will also participate in the unveiling of ACM's newest Legends of NASCAR exhibit.

Kirkland Concours Fast Approaching

The Kirkland Concours d'Elegance returns to Haub Family Field at America's Car Museum Sunday, September 8, benefiting Seattle Children's Hospital. The 11th annual version of the Pacific Northwest's premier concours will be the biggest and best yet, following a successful move to ACM in 2012.

Leading up to the Kirkland Concours is the Tour d'Elegance, a three-day, fun-filled driving adventure from September 5 through 7 touring pristine

roads throughout Washington and British Columbia. Tour participants will spend two nights at the Sun Mountain Lodge in the Methow Valley near Winthrop, Washington. The Tour is limited to 25 cars, so you are encouraged to [register](#) early.

To participate in the 2013 Tour d'Elegance, the car must be: a 2013 Kirkland Concours entry, a past entry, or a car that is appropriate for the Kirkland Concours. More information is available at www.kirklandconcours.com.

Riders for Health Race to ACM

Co-founders of The MEET's official charity visit ACM for the 1st time

The MEET, a Vintage Motorcycle Festival hosted by America's Car Museum, designated Riders for Health, an international aid organization, as its official charity. Riders for Health manages and maintains more than 1,400 vehicles for organizations that provide medical assistance in sub-Saharan Africa to over 12 million people. The organization has been programmed in seven countries across Africa since its establishment in the late 1980's.

Barry and Andrea Coleman
Founders of Riders for Health

"The work done by Riders for Health is the most benevolent use of motorcycles I have heard of anywhere," said Burt Richmond, chairman of The MEET. "I've traveled on motorcycles all over the world, and I know what a challenge it can be to get to remote locations on rough roads - if there is a road at all. I'm proud we are supporting this vital cause, one that is working so hard to bring better healthcare to so many people in Africa."

This March, ACM welcomed Riders for Health co-founders Andrea and Barry Coleman to Tacoma for their first visit to the Museum. Each found their favorite car - the Tucker and the 1967 Norton Atlas-Manx Racer, respectively.

The vintage motorcycle festival will take place outdoors on ACM's Haub Family Show Field on August 24 and 25. The weekend will feature vintage motorcycles, entertainment, exhibit and a Riders for Health display.
